Hello Mr. Ben:

It was nice visiting with you on the phone today. As promised, here are the lab reports for the Garcia Hill Community's water supply wells. The Word Perfect file has the information obtained with the assistance of TCEQ's Corpus Christi District Office (Mike Buckley), which shows water quality data beginning in December, 2006. The ".jpg" files contain water quality data provided to the Region by members of the environmental group STOP of Kingsville, which contain water quality data gathered prior to that date. It is my understanding that the reports provided by STOP were discussed at the Contested Case Hearing that was held in connection with URI's applications in Kingsville. Please feel free to e-mail/call me if you have questions on this. Have a nice afternoon.
